

**Rutland Historical Society Quarterly**

**Vol., VI No. 2 & 3**

**West Street**

**This quarterly, published in 1974, discusses the research in the local history of the Rutland community. The local history is broken down into sections of the resources available within the libraries in the community, the public records as well as the standard reference works. The quarterly also includes an image of a building that was a Federal building, which presently remains as the Olney apartments.**
